A little Creative Angler history with a photo of one of the catalog's dating back to 1982. Creative Angler was first established in 1977 and in 2010, Kit and Kristine took over ownership of the company.

Jack Troutman, Proprietor

Creative Angler, established in 1977, is a Northwest-based operation located in Kirkland, Washington. We serve independent sporting goods dealers and pro shops throughout the United States, Canada, and as far away as Australia.

We are proud of the success we've had in recent years and believe it is the direct result of our marketing philosophy. We have always believed that there is a need for a quality line of materials and tools that is practically priced. Presented in durable poly zip lock bags, it is servicable to both the public and store staffs. The result has been an overwhelming response through re-orders by stores and consumer requests. We want to thank you.

Remember, you are not taking on just another supplier of fly fishing materials and tools, but rather a quality line that is represented by fly fishing specialists who know the materials, the markets and trends. We want to assist you in any way we can. Give us a call today.
